

To whom it may concern

Dear Madam, Dear Sir,

**Maxforce® Activ Cockroach Gel (APVMA No. 81040);  
Crackdown® Residual Insecticide (APVMA No. 45907);  
Coopex® Insecticidal Dusting Powder Industrial Strength  
(APVMA No. 33210)**

**Maxforce® Activ Cockroach Gel; Crackdown® Residual Insecticide, Coopex® Insecticidal Dusting Powder Industrial Strength** are registered by the Australian Pesticides and Veterinary Medicines Authority (APVMA) for control of insect pests in various domestic, commercial, industrial and public building situations. These products are residual insecticides which are approved for use in food processing establishments, shops, factories, offices and other situations where professional insect control is required. The product labels include specific precautionary information concerning use of these products in food preparation areas to avoid exposure to exposed food, food utensils and food preparation areas.

**Maxforce® Activ Cockroach Gel** contains no human allergens and has been certified by HACCP as being suitable for use under Food Zone Classification NFZ (non-food zone).

**Crackdown® Residual Insecticide** contains no human allergens and has been certified by HACCP as being suitable for use under Food Zone Classification NFZ (non-food zone).

**Coopex® Insecticidal Dusting Powder Industrial Strength** contains no ingredients from the most common known human allergens (eggs, fish, milk, peanuts, sesame, shellfish, soy, tree nuts and wheat.)

Yours faithfully,

Margaret Fitzgerald
